2013 HUNTING PERMISSION LETTER

To:

This letter is written documentation that you have permission from the Essex County Greenbelt Association (Greenbelt) to hunt on our land during the 2011 Massachusetts hunting season(s) shown below.

Season/Method:

Property:

This permission is not transferable to any other individual and must be on your possession at all times while hunting on Greenbelt land in 2011.

While hunting on Greenbelt land, you must:
1. adhere to all state and federal laws;
2. consider the safety of the public and yourself above all other concerns while hunting;
3. do not abuse or otherwise misuse Greenbelt land. Permanent blinds or tree stands are not permitted. Please use only temporary, portable set-ups. You may use screw in tree climbing steps, but they must be removed when the season ends;
4. respect all Greenbelt neighbors. Do not cross onto abutting properties for any reason without land owner permission, even to retrieve game;
5. jump shooting/still hunting for birds and deer is prohibited. You must be stationary on the ground or in a stand while hunting.

Greenbelt is committed to allowing limited access to hunting on some of our properties, but you must act within the guidelines set forth in this letter. Please use your very best judgment in all instances to ensure the future of this program. Finally, if you encounter other hunters on Greenbelt land without written permission in their possession, you should inform them that they are trespassing. If they are uncooperative, feel free to contact me immediately.

Thank you for your full cooperation. You can always reach me at my Greenbelt office at 978-768-7241 x14 or dwr@ecga.org with any questions.

Good luck.

David Rimmer, Director of Land Stewardship
