Vision to protect and improve the quality of life for residents of every Massachusetts community

- Protect human and natural communities;
- Provide drinking water and food supplies;
- Enable healthy outdoor recreation;
- Power a green economy;
- Support municipal fiscal stability;
- Protect wildlife habitat;
- Sequester and store carbon; and
- Reduce vulnerability to climate impacts such as urban heat islands, flooding, sea level rise, and drought.

TREE LOCATION!**

**GREENING
THE GATEWAY CITIES**
MA Urban Canopy Project

A new city street tree will be planted here.

Trees provide fresher air, cleaner water and shade!
